MORE DETAILS:

Objective

The Train the Trainer Enablement Workshop provides participants with the training skills required to successfully deliver a Sisense onboarding boot camp for new Sisense admins and designers.

By the end of the workshop, participants will:

- Be familiar with the boot camp agenda and the materials kit
- Understand the guidelines for delivering the hands-on exercises and personal projects
- Understand the guidelines for managing the boot camp end to end, from the preparation sessions to the post-boot camp Q&A.

Requirements:

All participants shall have:

- Technical and BI acumen – highly skilled with Sisense Software, SQL; deep BI understanding.
- Completion of Sisense Boot Camp
- Participants recommended skills list: Deep knowledge of the business and experience delivering training.

Customer shall supply:

- List of participants
- Dedicated room for the onsite training days to accommodate the participants.
- Printed schedule
- Laptops for participants with Sisense installation and access to relevant data sources
- Internet access
- Board & Erasable Marker
- Screen or projector
