

Sisense Cloud Terms and Conditions

Sisense (“**Licensor**”) and the licensee (whether direct Licensee, OEM, or other license purchaser, as applicable, such party is referred to in this Schedule as “**Licensee**”) have entered into a license agreement (the “**License Agreement**”) and a Sales Order entered into under the License Agreement (the “**Sales Order**”). Capitalized terms used in this Schedule that are not otherwise defined herein, shall have the respective meanings set forth in the License Agreement or the Sales Order. Pursuant to the Sales Order, Licensee has licensed the Software and has agreed to provide Sisense Cloud (as defined below) as specified in the Sales Order. The following terms and conditions apply to the Sisense Cloud only.

The Sisense Cloud Managed Service (“**Sisense Cloud**”) is a service to manage hosting of Licensee’s installation of the Sisense software (the “**Software**”) on a third-party cloud environment deployed and maintained by Sisense. Subject to the terms and conditions below, Sisense shall deploy the Software and subsequent Updates and Versions of the Software in the hosted environment, provide access to the hosted environment, connect the Software to the Licensee’s data sources, and monitor and support the operation of the hosted environment and the Software.

1. SCOPE OF CLOUD LICENSE

- 1.1. **License Grant.** In addition to the scope and limitations set forth in the license grant under the License Agreement, Licensee is expressly licensed to use the Software in the Environment (as defined in the Sisense Cloud Scope attached hereto as **Exhibit A**). Notwithstanding anything to the contrary in the License Agreement, Authorized Servers licensed under the Sales Order shall mean and be limited to servers deployed in the Environment and managed by Licensor. Licensor will back up Licensee Data in the Environment on the schedule set forth in the applicable Sales Order. Unless explicitly stated otherwise in the applicable Sales Order, no license is granted to Licensee to download, install, activate, copy, or use the Software on servers other than the Environment.
- 1.2. **License Limitations.** The scope of licensed use of the Software set forth in the License Agreement shall be the licensed scope applicable to the Software installed in the Sisense Cloud.
- 1.3. **Licensee Responsibilities.** Licensee shall (i) comply and be responsible for its Authorized Users’ compliance with the License Agreement, these Sisense Cloud Terms and Conditions, applicable laws and government regulations; and (ii) use commercially reasonable efforts to prevent unauthorized access to or use of the Sisense Cloud and notify Licensor promptly of any such unauthorized access or use.
- 1.4. **Cloud Support.** Licensor shall provide the Sisense Cloud Support as described in the Sisense Cloud Support Terms attached hereto as **Exhibit B** throughout the term of the Sales Order(s) under which the Sisense Cloud is provided. Licensee acknowledges that the Sisense Cloud is hosted on a third-party cloud environment, and Licensor’s sole obligation with respect to the performance of the Environment is to provide the Sisense Cloud Support.

2. LICENSEE DATA

- 2.1. **Hosting.** All electronic data and information stored or managed by means of the Software by or for Licensee, including the results of data analysis embodied in the Dashboards and any other Software reports and outputs, is “**Licensee Data**.” “Licensee Data” does not include the Software or any third-party software interoperating with the Sisense Cloud. As between Licensor and Licensee, all Licensee Data is deemed Licensee’s property.
- 2.2. **Data Back Up.** Licensee acknowledges that the Sisense Cloud is not a system of record, and Licensee is responsible for all data storage and back up of the source systems from which the data processed by the Sisense Cloud is sourced. In the event of corruption or destruction of or damage to Licensee Data hosted on the Sisense Cloud, Licensor will use commercially reasonable efforts to recover or restore Licensee Data from back up on the Sisense Cloud in accordance with the Sisense

Cloud Support Terms, but under no circumstances shall Licensor be liable for any damages or other consequences due to destruction or corruption of or damage to Licensee Data.

2.3. License to Licensee Data.

2.3.1. Licensee grants Licensor and its affiliates and contractors a worldwide, limited-term license to host, copy, use, transmit, and process Licensee Data solely as reasonably necessary for Licensor to perform its obligations under the License Agreement and any applicable Sales Order, including expressly these Sisense Cloud Terms and Conditions, except as provided by law. Subject to the limited license granted herein, Licensor shall acquire no right or title to Licensee Data.

2.3.2. Without limiting the generality of the foregoing, processing of Licensee Data may include: (i) uploading, hosting, combining, analyzing, creating graphs and visualizations, displaying and delivering Licensee Data as directed by Licensee using the Software functionalities; (ii) performing Sisense Cloud Support services; (iii) providing business intelligence consulting services; (iv) using Licensee Data to create aggregated and anonymous statistical reports to monitor Licensee's use of the Sisense Cloud and Software and to improve Licensor's products and services, provided that such statistical information does not disclose Licensee Confidential Information; and (v) maintaining logs for compliance with data retention laws and internal security and disaster recovery policies.

2.4. **Responsibility for Licensee Data.** Licensee acknowledges and agrees that Licensor does not screen or review Licensee Data on the Sisense Cloud. Licensee warrants and represents that it has the right to access and use the Licensee Data with the Sisense Cloud and to permit Licensor to access and use the Licensee Data as provided herein. Licensee shall comply with all applicable laws and regulations regarding the collection, use, transfer and processing of Licensee Data, including but not limited to laws and regulations relating to the collection, use, transfer or processing of any personal data, third party Intellectual Property rights, and any other laws and regulations pertaining to the use or dissemination of any Licensee Data via the Sisense Cloud. If notified that such Licensee Data infringes or violates any third party's rights, Licensor may remove the allegedly infringing data from the Sisense Cloud.

2.5. **Security.** During the Subscription Period, Licensor shall comply with the security measures described in the Documentation available at: <https://documentation.sisense.com/sisense-cloud-security-controls/>.

2.6. **Data Deletion.** Licensor will erase all Licensee Data from the Environment within seven (7) business days after the expiration or termination of a Subscription Period.

3. LIMITATION OF LIABILITY; INDEMNIFICATION BY LICENSEE

3.1. Notwithstanding anything to the contrary in the License Agreement, and in addition to any disclaimer of liability in the License Agreement, Licensor shall have no liability arising from: (i) any disclosure of Licensee Data by Licensee's Authorized Users or through the functions and settings of the Software deployed on the Sisense Cloud under Licensee's control; (ii) claims alleging that Licensee Data violates the Intellectual Property rights of a third party, including copyright, privacy rights, data protection rights, database rights, trade secret, or trademark (including data made available by or on behalf of customers); (iii) destruction or corruption of or damage to Licensee Data; and (iv) damages or losses, if any, caused by any modification or adaptation made by Licensee to the Sisense Cloud without Licensor's express and prior written consent.

3.2. **Indemnification by Licensee.** Licensee shall defend Licensor against any claim, demand, suit, or proceeding brought against Licensor by a third party arising in connection with Licensee Data or Licensee's use of the Software or the Sisense Cloud in violation of the Sales Order, License

Agreement, and these Terms and Conditions (each a **“Claim”**). Licensee shall indemnify Licensor from any damages, attorneys fees, and costs finally awarded against Licensor as a result of a Claim or for any amounts paid by Licensor under a settlement of a Claim by Licensee, provided Licensor has (a) promptly given Licensee notice of the Claim (provided that Licensee’s obligation hereunder shall be relieved only to the extent any delay in providing notice has actually prejudiced the defense of such Claim) and (b) Licensee shall have sole control of the defense and settlement of the Claim (provided that Licensee shall not enter into any settlement that admits liability on behalf of Licensor or imposes any obligations on Licensor other than cessation of use of the allegedly infringing item or payment of amounts indemnified hereunder) and (c) Licensor shall provide Licensee all reasonable assistance requested by Licensee, at Licensee’s expense.

Exhibit A

Sisense Cloud Scope

“Sisense Cloud” Sisense Cloud consists of Cloud Hosting and Cloud Service as follows:

Licensor Responsibilities

Licensor is responsible for the following:

Cloud Hosting

During the Subscription Period, a dedicated Windows server with the specifications and location listed in the Sales Order is deployed in a cloud environment managed by Licensor (the **“Environment”**).

Cloud Service

Deployment of the Software

- Software Installation. Licensor will install the Software in the Environment within 6 business days after the effective date of the applicable Sales Order
- Software Updates: Licensor will install and test Software Updates on a temporary Update instance and conduct application sanity tests before deployment to production.

Enabling Access to the Software

Licensor will provide Licensee the following methods of access to use the Software:

- Remote Desktop Web Access (RDWeb) to the data modeling layer using static IP addresses to the number of Admin Users licensed under the Sales Order.
- Public HTTPS access to the visualization layer to the number of Users licensed under the Sales Order.
- One site-to-site VPN connection will be provided for secured connection to data sources, if required.
- FTPS server will be provided for uploading assets to the Environment.

Guidance on Access to the Environment

Licensor will guide Licensee on setting up and configuring its access to the Environment, addressing the following issues:

- Setting up Licensee’s access to the Environment
- Transferring assets, e.g. UI plug-ins, to the Environment
- Transferring source files, e.g. Excel files, to the Environment
- Deploying third-party connectors, external plug-ins, dashboards/widgets embedding, SSO, white labeling and email reports

Cloud Monitoring

Licensor’s Cloud Support Team will monitor the Environment and Software 24x7.

- Environment Monitoring consists of monitoring:
 - Server accessibility
 - Server resources including CPU, Memory and Disk utilization
 - Web access latency (for predefined regions)
 - Backup system.
- Software monitoring consists of monitoring:
 - Use of Environment resources, such as memory consumption and query time
 - Completion of key system processes (e.g. ElastiCube Build Process)
 - Other issues critically affecting use of Software in the Environment

- Proactive notification of Sisense Customer Support regarding issues detected in the cloud environment where appropriate. Customer Support of Software issues remains subject to the Sisense Software Support Terms and Conditions.

Licensee Responsibilities

Licensee is responsible for the following:

Access to the Environment

- Enabling access to the Environment
 - Provisioning outgoing whitelisted static IP addresses to access the Environment
 - Opening relevant ports for remote access and file transfers
 - Allowing access from the Environment to external systems/databases, if required
 - Compliance with security protocols required by Licensor
- Providing the HTTPS certificate, if Licensee is not using a standard Sisense domain
- Configuring a Site-to-site VPN and other security measures, if required by Licensee.
- Restricting access to the Environment to comply with Licensor's cloud access guidance. No other programs except those permitted by Licensor may be installed and run on the Environment.

Licensee Data

Licensee is responsible for all the data used with the Software, including

- Data integration to external systems/databases, if required
- Transfer of data files (e.g. Excel, csv) to designated folders in the Environment either via RDWeb or FTP client

Business Intelligence

Licensee is exclusively responsible for its Business Intelligence activities using the Software. Specifically, Licensor is not responsible for:

- Designing, creating and building Licensee's ElastiCube
- Design and creating Licensee's dashboards and reports
- Defining and maintaining User lists, User roles, and User Groups
- Obtaining rights to access or integrate Licensee's ElastiCube with any external systems
- Software integration with other systems including but not limited to: user authentication, SSO, etc. (if required), Embedding and white labeling, and email reports

System Operation

- Troubleshooting and supporting any issues external to the Software and the Environment
- Testing Software Updates, when required, in coordination with Licensor

Exhibit B
Sisense Cloud Support Terms

Licensor shall make available to Licensee the following support for resolution of Cloud-specific support issues only. For clarification, resolution of Failures of the Software shall remain subject to the Sisense Support Services Terms and Conditions addendum, and are not governed by this Schedule.

1. Definitions

- 1.1. **"Cloud Support"** means support provided by a specialized Cloud Support Team monitoring and maintaining the Cloud Service.
- 1.2. **"Contract Year"** means each one (1) year period commencing from the start date of the Subscription Term and from each anniversary thereto.
- 1.3. **"Downtime"** means the total number of minutes of Unavailability within a Measured Period, excluding SLA Exclusions during such Measured Period.
- 1.4. **"Measured Period"** means the total number of minutes in each Contract Year.
- 1.5. **"Quarterly Report"** means a report of any Downtime during a quarter of the Contract Year.
- 1.6. **"Scheduled Downtime"** shall mean any Downtime (i) of which Licensee is notified at least three (3) days in advance, or (ii) during a standard maintenance window, as published by Licensor from time to time. In either of the foregoing two situations, Licensor will use commercially reasonable efforts to ensure that the Scheduled Downtime falls between the hours from Sunday 00.00 through Monday 00.00 prevailing Eastern Standard Time
- 1.7. **"SLA Exclusions"** shall have the meaning ascribed to such term in Section 3 hereof.
- 1.8. **"Software Support"** means the support services provided by Licensor in connection with Failures (as defined in the Software Support Terms) in the Software.
- 1.9. **"Software Support Terms"** means Sisense Support Services Terms and Conditions as incorporated in the Agreement.
- 1.10. **"Unavailability"** means instances during which the Cloud Service is inoperable or inaccessible.
- 1.11. **"Uptime"** means the total number of minutes in the Measured Period minus Downtime.
- 1.12. **"Uptime Percentage"** means Uptime expressed as a percentage, calculated in accordance with the following formula:

$$\text{Uptime Percentage} = \text{Uptime} / \text{Measured Period} \times 100$$

2. Availability

- 2.1. During the Subscription Period for provision of Cloud Service to Licensee, Licensor will use commercially reasonable efforts to ensure that the Cloud Service is available for access and use by Licensee in accordance with the Agreement at an annual Uptime Percentage of at least 99.5%.
- 2.2. Licensor's obligations hereunder are based on and subject to Licensee: (i) complying with the terms and conditions of the Agreement, including these Sisense Cloud Support Terms; (ii) complying with Licensor's instructions for performing corrective action; and (iii) connecting to the Sisense Cloud in full compliance with Licensor's instructions.

3. SLA Exclusions

Unavailability of the Cloud Service due to the following causes (“**SLA Exclusions**”) shall not be counted as Downtime:

1.1.1. Scheduled Downtime;

1.1.2. Unavailability attributable to (a) causes beyond Licensor’s reasonable control, including any Force Majeure event or the performance of any third party communications or internet service provider; (b) Licensee’s failure to perform any obligation under the License Agreement that affects the performance of the Cloud Service; (c) the actions or omissions of Licensee, its permitted users or any third party acting on their behalf, or (d) Licensee’s or any third party’s equipment, software, or other technology not provided by Licensor;

1.1.3. Isolated Instances of Unavailability lasting less than five (5) minutes each, provided such instances are not recurring to such a degree that they materially impact Licensee’s use of the Cloud Service.

4. Low Uptime Percentage

If Licensee experiences recurring Unavailability, then upon Licensee’s written request, Licensor will provide Licensee a Quarterly Report within ten (10) business days.

If the Uptime Percentage shown on any two consecutive Quarterly Reports falls below 97%, then upon Licensee’s request, Licensor will provide a detailed report explaining the causes of the low uptime and a plan to remedy the failure to meet uptime commitments.

5. Support Incidents

5.1. Reporting. Licensee shall report Downtime to the Cloud Support Team via email, using the email address provided by Licensor from time to time. All other issues will be reported by Licensee to Software Support Services, as set forth in the Software Support Terms.

5.2. Response to Downtime. Upon receipt by Licensor of a report of Downtime, Licensor shall respond with an acknowledgement of such report within two (2) hours of receipt, following which Licensor will commence action to address such issue. If the reported issue is a Failure of the Software, the Software Support Terms shall apply.

5.3. Escalation. If Downtime is not resolved within four (4) hours, then Sisense will escalate the incident to its Head of Cloud Operations; if it is not resolved within eight (8) hours, then Sisense will escalate the incident to the VP of Field Engineering.
